

# ***PRESS RELEASE – FOR IMMEDIATE RELEASE!***

## **Boulder Dash® Contest Announced**

Chappaqua, New York – October 11, 2011 – First Star Software, Inc. and development partner InstantCom, Ltd. today announce a contest soliciting the best suggestion for a new feature, creature or tool to be used in future Boulder Dash® sequels. The USD \$150. prize for the best suggestion will be awarded October 29, 2011 as the contest ends 28th October 2011.

First Star Software, Inc and its development partners, InstantCom, Ltd. want to make sure that the next game in the series will appeal to today's gamers! A \$150 prize will be awarded to the person who submits what First Star Software considers to be the best idea for a new game feature; or a new creature; or a new tool; or anything else players suggest that might be added to Boulder Dash games in the future.

Players can find the contest here: <http://prizes.org/New-features-and-tools-for-boulder-dash-game> Void where prohibited by law, First Star Software, Inc. in it's sole discretion will pick what it considers to be the best suggestion. Its judgement to be considered final and binding.

Boulder Dash is an action-puzzle computer game first released in 1984. There have been many sequels in the last 27 years. The latest release is Boulder Dash® -The Collection™ for Android OS SmartPhones. It features 5 games from the past including the much loved original from 1984 and can be found on the Android Market here: <https://market.android.com/details?id=net.instantcom.bdtc>

In all Boulder Dash games, the hero Rockford™ needs to collect diamonds, avoid boulders and different types of enemies, use magic walls or amoebas to convert boulders into diamonds; and, sometimes, use tools to solve the cave puzzle. These and other interesting characters and features and the real-life physics of falling objects comprise the game mechanics players have come to expect and enjoy in all Boulder Dash games.
